

# September V.h.f. Party Summary

Nearly 500 Stations Report Lively Week End

**T**ROPOSPHERIC propagation was good along the northeastern seaboard Saturday night, and there was a short period of aurora for the northeast and Great Lakes areas, but on the whole the week end of September 17 and 18 was just about normal for that time of year. Despite this, v.h.f. activity was at a high level, and we have 494 entries in our final tabulation for the September V.H.F. Party.

Scores kept pace with the increased activity, and v.h.f. party totals look more like our lower-frequency contest scores all the time. One station made 786 contacts, another 652, and dozens went over the 400-contact figure, once considered all but unattainable in a v.h.f. affair. Entries came in from 53 ARRL Sections.

As always, the Party took on a Field Day character, with 84 of the stations reporting being portables. Some of these groups went all-out, carrying home-station type setups and antennas to the high spots, and pouring it on full-blast. W2PEZ/2, manned by the 6220 V.h.f. Group, involved much hauling and  $\frac{3}{4}$  mile of hiking, but the labor paid off with the country's leading score: 786 QSOs on 4 bands, for 37,485 points. The Copperhead V.h.f. Society of Washington, D. C., toted kilowatt transmitters, and the best in receivers and antenna systems, up to Foxville Fire Tower, near the presidential retreat at Camp David, Md., and worked 652 stations on 4 bands, for 32,432 points with W3JZY/3. Other high-ranking eastern portable stations included W1BJ/1, Mt. Kearsarge, N. H., and W2LWI/2, Overlook Mountain, in the Catskills, and many others.

With little or no DX to build up section multipliers, stations out of range of the crowded East did not make so many points, but they worked plenty of stations. (Perhaps we should reiterate here that these country-wide rankings we mention are entirely mythical. There is no national award of any kind; you compete only with other stations in your own ARRL Section for certificate awards.) A spring-and-fall regular, the Southern Peninsula Old-timers Society, K6TJJ/6, took it in comparative ease this time. After several bouts with snow and cold weather in higher elevations, they chose 2000-Skegg's Point, in the Santa Clara Valley Section this time, and it proved good enough for 304 contacts on 4 bands, for 6848 points.

W6ZOP/6 led the single-operator stations of the West, with 368 contacts on 50, 144 and 220 Mc., for 4114 points and the San Diego Section award. The West's top effort was the work of WA6DJB, Los Angeles: 453 QSOs on 4 bands, for 7020 points.

The country's leading single-operator score was turned in by W1RJA, Milford, Conn. Ed worked 410 stations on 50 and 144 Mc., coming

up with an impressive section multiplier of 32, for 13,120 points, and the Connecticut Section wallpaper. Close behind was W1QXX, Arlington, Mass., who lead the Eastern Massachusetts Section with 309 on 4 bands, for 12,432 points. Many fine efforts are missed if you merely scan the tabulation for high scores. Examples: W7RT, Seattle, with 131 QSOs for 1048 points, and K7HRW, Reno, Nevada, with 102 on 50 and 144 Mc., for 1224.

One-band work is getting rarer all the time, but some nice scores were made on both 50 and 144 Mc. by one-band operators. W2PUO/2 managed 218 contacts on 50 Mc., and K2VZA 187. A higher section total gave K2VZA a 2-point edge among 6-meter operators, at 2618 points to W2PUO's 2616. Best 2-meter effort was by WA2INB: 177 in 12, for 2301 points. The Northern New Jersey award was won by W2DWJ without using 50 Mc., but he did right well on 220 and 420, as well as 144 Mc. W2KIB, second in NNJ, ran up a section total of 31 the hard way on 50, 144 and 220 Mc. Jim has no modulator! One-banders took 10 section awards, 5 each on 50 and 144 Mc., the best of these being K8KCI's leading effort in Ohio: 173 QSOs on 50 Mc., for 1038 points.

## SCORES

In the following tabulation, scores are listed by ARRL Divisions and Sections. Unless otherwise noted, the top scorer in each section receives a certificate award. Columns indicate the final score, the number of contacts, the section multiplier, and the bands used. A represents 50 Mc.; B, 144 Mc.; C, 220 Mc.; D, 420 Mc.; and E, 1215 Mc. or higher. Multiple-operator stations are shown at the end of each section tabulation.
