

**14th Running Finds Activity and Scores Still Climbing**

## **1961 V.H.F. Sweepstakes Summary**

THE V.H.F. Sweepstakes looks more like its lower-frequency counterpart every year. Always the top event on the v.h.f. man's calendar, the V.H.F. SS now threatens to displace one of the Big Three (Field Day, SS, DX Contest) as an all-time favorite operating activity. The 14th running, January 7-8, 1961, brought in 1561 valid logs, up 8 per cent over the 1960 record. Some 1094 stations were on 50 Mc., and 990 on 144; both records. All this came about with conditions generally poor. We shudder to think what might have happened had there been major propagation breaks around the country!

For the first time in v.h.f. contest history, single-operator contact totals went over the 500 mark. W3HYJ and W3KKN, both of the Philadelphia area, worked 521 and 541 stations respectively. W3HYJ had 19 ARRL Sections, for 30,218 points, and W3KKN 15, for 27,025. Eight stations exceeded the magic figure of 400, once considered all but impossible of achievement in a v.h.f. contest. These included W9ROS, Roselle, Ill., with 415, showing that there was no East coast monopoly in this field.

Club spirit makes the V.h.f. Sweepstakes the grand party it is, and several years of intensive effort paid off in 1961. The Mt. Airy V.H.F. Club, never less than 5th since their entry into the fray in 1957, climbed to 3rd, then 2nd, and finally this year pushed the perennial winner, the South Jersey Radio Association, out of the top spot. With practically every member taking part, 92 Pack Rats brought home a total of 617,139 points. Note well that this is an average score per member of 6708 points, an achievement not even approached by any competitor.

SJRA virtually equalled their 1960 score, but lost to their across-the-river rivals by a wide margin. Third position in the club standings was taken by the 6-Meter Club of Chicago, repeating their 1960 effort. A new name to reckon with in club competition is the National Capital V.H.F. Society. The boys from the Washington area jumped from 9th to 4th, pushing back the hard-working Dayton Amateur Radio Association by a mere 6 points! Three other clubs retained their 1960 ranking, 6th, 7th and 9th places being held by the Mobile Sixers, Waltham Amateur Radio Association, and the Keystone V.H.F. Club. Old hands at V.H.F. contesting, the Rochester V.H.F. Group landed in the top ten for the first time, and a newcomer, the Southern California V.H.F. Radio Club, hit the 8th spot on their first try. We have the feeling that here is a group capable of making trouble for the leaders.

While all the top scores represented work on two or more bands, there were some notable one-

band efforts. In 57 ARRL Sections represented, awards were won in 12 on 50 Mc. and 2 on 144. K8MMM hummed his way through 280 50-Mc. contacts for 12,320 points and the Ohio Section wallpaper. W2GOO stuck to it to lead the Eastern New York Section, and all 2-meters-only operators, with 295-10-11,800. W3IBH worked more stations on 144, an even 300, but with a lower multiplier had to be content with a thousand points less than W2GOO.

Success in digging for new sections is the mark of the hot contest operator. W1HDS came up with 20 sections on 50 Mc., enabling him to post an 8100-point total with only 135 contacts. K1AII, also in Eastern Massachusetts, operated by the licensee and W1BVP, worked 23 sections. With 280 contacts, this resulted in 18,414 points, one of the best multi-op accomplishments. How do you knock off the hard ones others miss? One way, used well by both W1HDS and K1AII, is to learn to push a key effectively. This will get you sections the voice-only fellows never even hear. Quite a few contestants bemoan the lack of c.w. in v.h.f. contests. All who can use it agree that it misses its true potential by too wide a margin, simply because not enough v.h.f. operators give it a real try. If you're looking for a secret weapon for next year, why not train a few good c.w. operators in your club? Keys are cheaper than kilowatts!

The V.H.F. SS gets around. This year we had two entrants in Alaska. KL7AUV, Anchorage, was able to work 28 stations on 6 and 2, without any DX help. K9KVV/KH6 picked up a few 6-meter contacts in the 50th State. And we even had one log from Mexico. While we cannot issue awards to, or credit section multipliers for, an area outside the ARRL Field Organization (see page 6 of any *QST*) we're happy to report that XE1OE, Mexico City, was able to work 48 stations in 7 ARRL Sections, plus Mexico. With W9OWK and W8NRM at the controls, XE1OE did business on 50, 144, 220 and 420 Mc.

A large group effort that made the contest more fun for many entrants, but which cannot be credited for awards, was that of the Connecticut Mobileers. These boys (and gals) are a potent factor in the 2-meter activity picture all through Western New England, and they went all-out in the SS, totalling some 180,000 points. Unfortunately they draw their support from much too wide a territory to be acceptable under SS Rule 7, in fairness to other clubs of the region, so they had to be ruled out of this and future club-award activities. This move is made with a bow in their direction for a superb job of v.h.f. promotion and public service.

— E. P. T.

## SCORES

In the tabulation on the next pages, scores are listed by ARRL division and sections. Unless otherwise noted, the top scorer in each section receives a certificate award. The highest-scoring Novice also receives a certificate in each section where at least three such licenses submitted valid contest logs; footnotes denote these winners. Columns indicate final score, number of contacts, number of different sections worked, and the bands used. A represents 50 Mc., B 144 Mc., C 220 Mc., D 420 Mc., E 1215 Mc. Multioperator stations are shown at the end of each section tabulation.
