

Contest contrasts. At the left is the lightly-dressed crew of K6DBZ/6, atop Sierra Peak, in the San Diego Section. They worked 477 stations on 50, 144, 220 and 1215 Mc., for 13,356 points, the West's top score. Look now at K1JDY and K1KOB, right, as they prepare to slide down the trail from Mt. Agamenticus, near York, Maine. All equipment, generator, and grub were dragged 1½ miles up the mountain road on toboggans, to set up K1NTC/1. The hard-to-get Maine Section was provided to 104 grateful 6- and 2-meter operators. Driving sleet during the trip up and through most of the contest period, didn't make things any easier.

1962 V.H.F. Sweepstakes Summary

15th Running Shows High Activity Despite Poor Conditions

THREE were few major records set in the 1962 version of the ARRL V.H.F. Sweepstakes. Thanks to practically no DX on 50 Mc., and tropospheric propagation at or near the winter minimum for the 144-Mc. operators, not many statistics of the 1962 contest equal the records set in 1960 and '61. That most 1962 categories even come close is a tribute to the steadily increasing level of v.h.f. interest in recent years.

Our tabulation shows 1506 valid logs, a drop of 5 per cent from 1961, but still above any other year. Of these, 1109 showed 50-Mc. activity — an all-time record. Operators reporting 144-Mc. contacts totaled 941, a slight drop from 1961, undoubtedly reflecting the discouraging conditions prevailing over much of the country. Club competition was stiffer than ever. There were 69 valid club entries, a new high, and the gavel-winning total run up by the Mt. Airy V.H.F. Club of the Philadelphia area, 694,552 points, is an all-time club record.

The country's top score by a single operator was turned in by W2EIF, Camden, N. J.: 521 contacts on 50, 144 and 220 Mc., for 24,960 points. Joe won the Southern New Jersey Section award, and was one of 5 contestants to work 14 or more ARRL Sections. Others were W3TYX, Philadelphia; W1MEH, Easton, Conn.; and W2LWI, Wappingers Falls, N. Y., who piled up his 14 on 144 Mc. The 15-section total of W2BLV, Haddonfield, N. J., is the lowest top in this department in many years, evidence of the dismal tropospheric conditions in the East.

The highest multiple-operator score reported was that of W1MHL/1, perennial record-setters of the June and September parties. With W1s

DDF, GEF and KSI doing the operating, W1MHL/1, Hogback Mountain, Vt., worked 461 stations in 18 sections, on 50 and 144 Mc., for 25,732 points. The Vermont Section bait was pushed to full advantage in collecting those 18 sections. W1MHL/1 was heard on c.w. on both 50 and 144 Mc. throughout the contest, whenever use of this mode would pay off.

Perhaps the most encouraging statistic that can be drawn from the contest as a whole is the country-wide nature of the participation. In years gone by, it took sporadic-E DX, with its potential for large numbers of contacts from areas of low v.h.f. activity, to bring contest entries from all parts of the country. This time we find 30 entries from North Carolina; 8 from Colorado (with section winner K0TSD working 55 stations); 28 from the Los Angeles Section (long an area of high activity, but low contest participation); 23 from North Texas; 10 from Oklahoma, where winner W5TKT worked 102 stations; and so on down the list.

At least 10 single-operator stations made more than 400 contacts. W2EIF had the top, 521. W3KKN, Willow Grove, Pa., with 514 was the only other to exceed the 500 mark. It helped to be within striking distance of Philadelphia, as witness 426 for W3TYX, 451 by W3HYJ, 434 by W3CL, 485 by K2TYW, 400 by W3HKZ, and 442 by W2AXU. Other sections of the country were not far behind. In fact, this may have been the best-balanced contest geographically that we have had on the v.h.f. bands. Note that W9ROS, Illinois Section, worked 432 stations; K6UMM/6, L. A. Section, 457 stations; W8CCI, Ohio Section, 402; and K6DBZ/6, San Diego Section, 477.

We remind everyone that these country-wide totals are cited merely as evidence of outstanding work. Awards are made only on the basis of competition within one ARRL section, as it is recognized that no satisfactory basis exists for national awards.

Though a high percentage of all contestants worked two or more bands, some very good records were made by concentrating on one favorite. K2MLB, West Orange, N. J., won the Northern New Jersey Section Award on 50 Mc. only, posting the country's top one-band score, 340-13-15,548. Section awards were won in Minnesota, New York City-Long Island, Missouri, Nebraska, Rhode Island, Oregon, South Carolina, Wyoming, East Florida, Los Angeles, North Texas and British Columbia on 50 Mc. Winners in San Francisco, Sacramento Valley and West Virginia were 2-meter men. W3IBH, Philadelphia, worked an even 300 stations on 144 Mc., for a score of 12,000 points. Charlie has missed recognition in some of our past contest reports, but he is always up there at or near the top of the 2-meter contingent. This time he was No. 1 by a wide margin.

Club activity and initiative continue to zoom upward. The Mt. Airy V.H.F. Club, taking part in only their 6th SS, put on the greatest club drive in the 15-year history of the contest. Putting practically every member on the air on

one or more bands, the Mt. Airy gang overwhelmed all competition, including that from 8-time winners, the South Jersey Radio Association. A glance at the totals in the SNJ and EPA Sections, below, will give the reader some idea of how intense this rivalry is.

It is of interest to note that the first three clubs are in the same spots as last year, and the only change in the top three since 1960 was the swap of first and second places by Mt. Airy and South Jersey last year. The 6-Meter Club of Chicago remains a strong threat, holding the number-three spot for three years running. The Dayton Amateur Radio Association made another valiant try, pushing the National Capital V.H.F. Society out of fourth place. A number of others will bear watching. It will be seen that Dayton, the Rochester V.H.F. Group, the 51.30 Club, the Mobile Sixers and the Central New Jersey V.H.F. Society all improved their standings over last year.

Competition for a spot in the "Top Ten" clubs provides almost as much interest as the battle for the annual gavel award. Many clubs recognize that they have little chance to hit the top spot, but that doesn't keep them from going all out each year. This kind of effort can be a great club-spirit builder. If your club hasn't tried it, right now is a good time to start planning for the 1963 running of the V.H.F. SS.

SCORES

In the tabulation on the next pages, scores are listed by ARRL division and sections. Unless otherwise noted, the top scorer in each section receives a certificate award. The highest-scoring Novice also receives a certificate in each section where at least three such licensees submitted valid contest logs; footnotes denote these winners. Columns indicate final score, number of contacts, number of different sections worked, and the bands used. A represents 50 Mc., B 144 Mc., C 220 Mc., D 420 Mc., E 1215 Mc. Multioperator stations are shown at the end of each section tabulation.
