

September V.H.F. Party Summary

No Records, but Country-Wide Fun

WHERE you sit has a lot to do with how you view a v.h.f. contest, ordinarily, but with few exceptions the opinion stands that the September V.h.f. Party of 1962 was one of the worst on record, as far as propagation goes. Still, it brought in more than 450 logs, which would have been a record a few years back. As may be seen from the comments quoted below, there was no lack of enthusiasm, but a thorough search of the logs and letters fails to reveal a single record high of any kind.

This was a contest that paid off on operating skill, persistence, equipment quality and locations, more than most. This is perhaps the fairest kind, and over the weekend of Sept. 15 and 16 the element of luck had as little to do with the results as in any contest we've seen. Still, we find mostly familiar calls in the upper-bracket scores. Those who have the combination of know-how and facilities win, come what may in the way of natural aid or obstacles.

K3IPM, Philadelphia, worked the most stations and posted the highest score of any single-operator station, in winning the Eastern Pennsylvania Section award, as he has done on several previous occasions. Only K2LNS and W1RJA, award winners in Northern New Jersey and Connecticut, respectively, were also able to run up more than 300 contacts. Section totals of 29 were amassed by K3IPM, W1RJA and K1DIR, setting the pace in this department for the country.

Among the staff-operated stations there are also few Johnny-come-lately winners. The 6220 Club of Northern New Jersey, operating W2PEZ/2, ran up the country's highest total, 748-42-31,458, using 50 through 1215 Mc. A certain well-known call is missing from this category, the operators devoting their efforts to

one binge a year these days, but they had better look to their laurels, judging from the intensive efforts of several club groups in the September affair. Witness W1GB/1, with 570-42-25,116, tops in New England, and already working on next June. Or W1BU, with 554-43-23,822. W1OOP thinks that if Sam would get that 1296-Mc. dish to aim at earthly targets, as well as the moon, the RSVHFS gang would "have it made." Not to be counted out is the Cleveland 50-Mc. DX Club, W8HBI/8, with 600 contacts and a score of 18,051. Our records indicate that the region centered on Ohio is a "sleeper," just waiting for the right combination to put over a score that will leave the rest of the country gasping.

There were some surprises, mostly in the large numbers of stations worked without benefit of any favorable propagation, in areas where dead-band conditions used to rule out interesting work in a v.h.f. party. We find WØFPP/Ø, KØRRC/Ø and WØDK/Ø, operating from high points in Colorado's Front Range, all making more than 100 contacts, and the Boulder Radio Club, WØDK/Ø, working three Wyoming stations on 432 Mc. WA4BVW, licensed for and operating from Clingman's Peak, Mt. Mitchell, N. C., made 120 contacts on 50, 144 and 220, for 2000 points. WA4AAJ won the Kentucky Section award on 50 Mc., with 161 contacts, on a "dead" band. K4BEI/4 found 85 stations to work from Alabama on 6. WA5CDG won in North Texas with 111 essentially local 50-Mc. contacts. WØEKW won in Missouri with 105. WØEAO/5, operating from a 200-foot gravel pile in Northeastern Oklahoma, found 110 stations to work on 6, despite poor conditions. K8KIX worked 245 stations on 6 from Michigan.

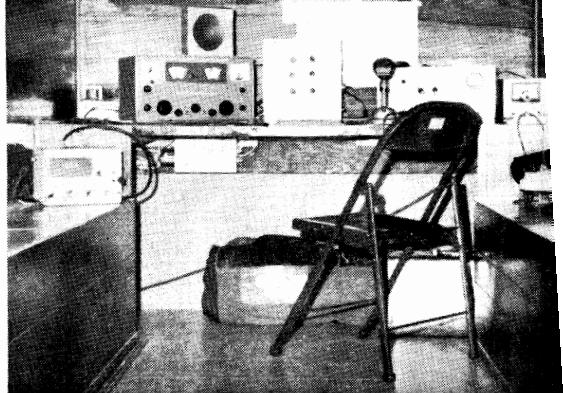

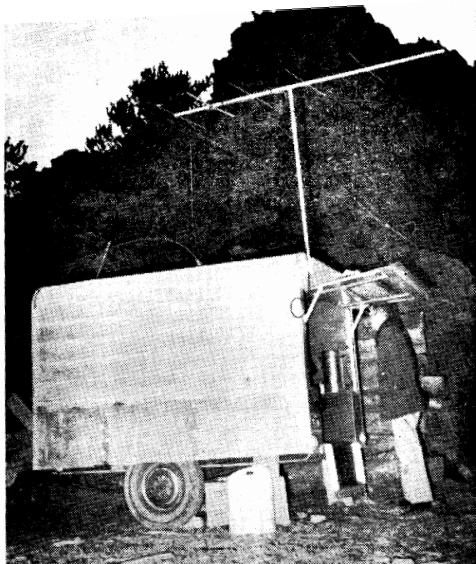

The mostly dead conditions boosted the worth

The Western Pennsylvania Section has always been tough for stations along the Eastern Seaboard, but this was remedied in the September Party by W3SDZ/3, atop Rauchtown Mtn. The most easterly high point in the section saw two towers, 60 and 70 feet high, erected for the occasion by K3SBQ, K3SHY and W3SDZ. A 7.5-kw. generator supplied power, and gear was housed in a converted school bus and a commercial radio mobile news cruiser. K3SHY at the mike.

More will be heard from this station in future contests.

V.h.f. trailer of KØRRC/Ø used atop Squaw Peak, 11,500-foot elevation west of Denver, Colo.

of the 144-Mc. band, and some real digging produced fine scores for operators who work that band only. WA2MOY/2 ran up the country's highest one-band score, 250-18-4500, on 144 Mc., the first time in the memory of the oldest inhabitant of the v.h.f. bands that this trick has been turned by a 2-meter operator. WA2LRO won the NYC-LI award with 220 contacts in 12 sections on 50 Mc., for the best total on that band. Favorable tropospheric propagation (more help on 2 than on 6) was a factor in the ability of several 2-meter men to work more sections this time than the best 6-meter operators. Note that W1PKQ/1 was able to collect 15 sections from Connecticut on 144 Mc. The predominance of 2-meter activity is reflected in several California totals, and in the record of VE3BGB and VE3EYC, with 169 and 164 stations, respectively, on 144 Mc. And note that one of the better Novice scores was that of WN9EYJ, who worked an even 100 2-meter stations.

The real flavor of the party comes through best from sampling the comments appended to logs. Here are a few:

K3IUV — Wish more would use c.w. under weak-signal conditions. Sure makes a big difference. Increased activity noted on 220 and 420 this time.

K3HNP — Conditions like the worst of January. C.w. activity picking up, but slow operators should practice contest exchanges — and stick to the basic information.

W3ZSR — Conditions crummy, but never had so much fun!

W3HB — Really had to scratch for 61 contacts on 2!

K9EEC — Activity very good for September. Most stations ever worked in September or January contest.

K9YNF — Not much like June, when I heard the whole country at once on 6!

W9CSF/9 — Transmitters, converters and antennas all home-built. Michigan City ARC is real building club.

W4ZZ/4 — Conditions very poor. First contest in which no Ohio or W. Va. stations have been worked

from this high mountain location. (LeConte Lodge, Gatlinburg, Tenn.)

W8WZJ — Smart operating pays off. Noticed that operators who give their location, beam heading and tuning patterns frequently make the contacts fastest.

K8BHH — Well, now, *that* was a contest!

WN2AKA — My first; low score, but good experience!

WA2RJJ — Never heard so much 2-meter activity!

WA2EMA (94-13-1222, on 144 Mc.) — Most contacts made on c.w. VE3's came through beautifully Saturday night in N.J.

WA2FVL — Lots of people could do with more selective receivers, even when using low-power.

WØROY/Ø — Antenna 12-section super-turnstile, 570 feet above ground, courtesy of KOAM-TV, Pittsburgh, Kan.

W1PKQ/1 — Can't stress enough the value of c.w. in digging up section multipliers!

Once again, K3IPM, Philadelphia, won the E. Pa. Section award in the September V.h.f., and this time also posted the country's highest single-operator score.

Inside the 2-meter tent of W2PEZ/2 we see WA2NAT logging, K2QKR receiving and K2URC operating. Such platooning helped the 6220 Club to post the top score by any group-operated station.

K1TKZ — This was a contest for high power and mountain tops, but high local activity kept things interesting for everyone.

W1GB/1 — Better gear this time enabled us to beat our June score by 5000 points, despite poor conditions. Not many groups can say this. Wait 'till next June! 220 paid off with 24 contacts in 11 sections.

K1DIR — More people should try scatter skeds! **W1OOP** — Worked Maine on 1296 Mc., but couldn't get my own section!

W1HDQ/1 — Worked from long-time favorite portable site, Sweetman Mtn., Granville, Mass., first used by the writer on 5 meters nearly 30 years ago. Some different now!

K1GYT — Very quiet in Vermont his time, with few mountain-toppers.

K3JRR/1, Vt. — Used 2-meter beam made of coathangers — but it worked!

Up they go! The 6- and 2-meter beams of WA2IOG/2 are hoisted to their position on a building of the Rutgers Experimental Farm.

W7GUH, Portland, Ore. — Best contest yet. Tropo excellent to Seattle, nearly 200 miles.

W7RT, Seattle — Scatter skeds paid off on 50 Mc. Got SJV and LA Sections in California, workable no other way this time.

WA6GYD — Real lack of activity in Bay Area.

WA6BQO — Best activity on 432 in a long time.

WV6YQS — Your V.h.f. QSO Parties are wonderful; just wish more v.h.f. men would make an effort to participate in them.

W4GNF, Greensboro Radio Club — Over 4 inches of rain on Saurtown Mtn. over the weekend!

W4TLC — Lost 2 power transformers Saturday!

W4TBQ — We need more listening for c.w.!

K0RRC/0 — Highest station? Squaw Mtn., 11,500 feet.

W0FPP/0 — Would be glad to hear from other groups crazy enough to work mountain-portable in winter, to swap ideas on logistics.

VE2APN — Most v.h.f. activity ever seen here!

VE3EZC — Many stations could have picked up another section by turning their beams our way. Conditions excellent entire weekend. Best contest ever!

SCORES

In the following tabulation, scores are listed by ARRL Divisions and Sections. Unless otherwise noted, the top scorer in each section receives a certificate award. Columns indicate the final score, the number of contacts, the section multiplier, and the bands used. A represents 50 Mc.; B, 144 Mc.; C, 220 Mc.; D, 420 Mc.; and E, 1215 Mc. or higher. Multiple-operator stations are shown at the end of each section tabulation.
