September

QSO Party

Here's **W7VRM** operating the 2.3-GHz station in QSO with **K7AUO/7**. Assisting are **W7FBP** and **WA7GFP**.

REPORTED BY AL NOONE,* **WA1KQM/WB6SAZ**

AURORA or bust! This is what it would take to save the day. On Sunday evening, with little or no warning, this is what we got. Otherwise, band openings were poor to fair throughout most of the USA and Canada, local groundwave activity supplying most of the QSOs.

Highlighting the September VHF QSO Party was the single-operator multi-band effort of **K3IPM**. Stan's score of 24,596 nearly doubled that of his closest competitor **K1AGB** — 13,515. **W1DC/1**, the 1200 Radio Club, turned in an outstanding score of 59,340 to lead the multi-operator multi-band class. They were closely followed by **WA2WEB/2**, the East Coast VHF Society, scoring 52,851 points. Single-operator single-band honors go to **WB8AHY** scoring 3720 while **W3KWH**'s 6944 points were good enough to top the multi-operator single-band class.

Notable section returns were submitted by single-operator stations **K9HMB** — 25 on 50 MHz; **W2UK** — 24 on 144 MHz; **K3IUV** — 11 on 220 MHz; **W2CLL** — 15 on 432 MHz; and **K3IUV** — 2 on 1296 MHz and above. High multi-operator returns went like this; **WB2-GKE/2** — 34 on 50 MHz and 22 on 144 MHz; **WA2WEB/2** — 14 on 220 MHz and 15 on 432 MHz; and **K7AUO/7** — 4 on 1296 MHz and above.

Summarizing, some 307 logs were received from 56 sections. Of these, 240 were single-op and 67 were multi-op entries. Awards are scheduled to be mailed on January 15, 1970.

CU in the VHF SS.

Soapbox

"At a 6007-foot peak in the Olympic Mt. Range, with winds to 40 MPH, rain by the barrel and a howling snow blizzard. What a contest, we won though, me and the antennas!" — **K7VNU**, Wash. "Well, what can I say? — I tried! But alas, no band opening, neither North or South." — **KP4DFH**, W.I. "Good ground wave, local activity but no band openings on 6 meters. Two meters was the place to be. All-in-all an enjoyable contest." — **WA3KXX**, E. Pa.

* Communications Assistant, ARRL.

"Sporadic E, Ionospheric and meteor scatter conditions were at an all-time low. Local tropospheric conditions were the only thing that saved the day." — **K7ICW**, Nev. "I feel the change in rules that allows operators to operate any two 14-hour periods is the greatest thing to hit a VHF contest in years." — **K1PMM**, N.H. "Found plenty of activity on 432 MHz. Highlight of the weekend was my 70-mile QSO on 1296." — **K3IUV**, E. Pa. "My first contest and I learned a lot." — **WAILIO**, Conn. "Local activity was the lowest I've ever seen, particularly on 50 MHz." — **W4WQZ**, Tenn. "I have completed a transmitter and receiver for 10 GHz and both are operational. Now all I need is somebody to work." — **WB2IRX**, NJ. "Activity a little disappointing, especially on 432 MHz; but, the 23 QSOs in 4 sections on 220 MHz, was very gratifying." — **W6GGV/6**, L.A. "Surprised to hear 6 meters dead during most of the contest." — **WA6CPP**, SJV. "Worked one new state for WAS." — **WA3KLF**, Md. "Not much 50 MHz scatter, but Sunday evening's aurora livened things up on 6 and 2 meters." — **WA2WEB/2**, NJ. "My apologies to the many stations who asked for 432 MHz QSOs, promised equipment never materialized!" — **W3EMD/8**, WVA. "Picked up two new states on 220 MHz, and 432 MHz. The aurora was a surprise." — **W2CNS**, WNY. "Spent the entire weekend on a mountain-top in western North Carolina. Worked all the states in the 4 and 8 call areas plus Missouri and Mississippi all on groundwave." — **WB4-LDO/4**, N.C. "Got a great deal of multipliers in the last 6 hours." — **WB8BGY**, Mich. "Interesting contest, would like to see more DX from the midwest." — **WB2LGK**, NLI. "Good contest but had to QRT early." — **WB9ALZ**, Ind. "Good work, keep the contest's coming, we love em! Would like to see a power multiplier." — **WA2FUZ**, NLI. "Aurora was so strong on 6 meters that I was able to get W2CNS for a new section with only one watt output!" — **VE2HW**, Que. "Sure would help if AC power would stay on!" — **WB9PFP**, Iowa. "Could find only 5 stations willing to use c.w. during the poor to fair auroral scatter opening in the closing hours, frustrating! Had a good time anyway, as always." — **WB9EKB**, Nebr. "Sunday night good, especially with the aurora." — **WA6UWL**, Minn. "It seems my 6360 mixer just doesn't have enough ooomph by itself! Will have an amplifier built for next test." — **VE7ANP**, B.C. "Glad to hear all the c.w. No west coast DX heard despite the VE3-VE6 opening. Will have a KW for the next test." — **VE3GAF**, Ont. "Picked up my 21st state on 2 meters during aurora." — **VE2DFO**, Que. "I hereby submit my score of 1 station, also heard 8 VWS, 2 Fords and a power mover." — **VE6AIA**, Alta. "Band conditions very bad except for 2 minutes at 0149 GMT on 15 September when VE3CUA was worked on 50 MHz." — **VE6AHE**, Alta. "Death to all VE2s in June!" — **VE3ASO**, Ont. "Why not give an award for multi-op regardless of number of entries?" — **W6EPL**, S. Bar. "Very poor ac-

tivity this fall, missed the Southern California mountain toppers." — **WB6KBZ/6**, SCV. "Operated with 100% emergency power from the top of Ft. Bluff." — **K4WHW/4**, Ala. "Worked 15 states with 5 watts output on 144 MHz." — **WA4ZSF/4**, Va. "Hope for better results next year." — **W4NLX/4**, E. Fla. "Rolled my own s.s.b. rig for this contest and found it worth every minute of the effort." — **K3NYG**, Del. "First time on VHF, had a great time and met some very nice people." — **WN3LAR**, E. Pa. "Contest was very enjoyable." — **WA3GSH**, W. Pa. "Just got home from out of town to catch the end of the contest and the aurora, quite a finishing touch." — **W2WGL**, WNY. "Worked a VE2 on 144 MHz, c.w." — **WA2ANI**, NNJ. "Two meters unbelievable." — **WB2TUT**, NLI. "Unusual comment heard, 'Are you running phone or c.w. OM'." — **K2PCQ**, WNY. "New rig sure made a difference." — **W2GFF**, NNJ. "Finally did something on 220, but hope to be really equipped for UHF in June '70." — **WB2GKE/2**, NNJ. "Last contest from R.I., hope to pop up from our new QTH come the January contest." — **WA1GFG**, R.I. "Of all the weekends to come down with a head cold." — **WA1BFD**, EMass. "Wait till January." — **WA9HHH/1**, Conn.

SCORES

In the following tabulation, scores are listed by ARRL divisions and sections. The top single-operator scorer in each section receives a certificate award. Multiple-operator scores are shown at the end of each section tabulation; in sections where at least three such entries were received, the top multioperator scorer receives a certificate award. A double asterisk indicates Novice award winner; one asterisk indicates Hq. staff member, ineligible for award.

Columns show final score, total number of contacts, section multiplier, and bands used. A represents 50 MHz; B, 144 MHz; C, 220 MHz; D, 420 MHz; E, 1215 MHz and above.

Bill, **K2OWR**, made 202 QSOs on 144 MHz, good enough for second place in the NNJ section. His 15 over 15 long john above must have made the difference, considering he was only running 75 watts on A-M.

Wondering what K1AGB used to snag the Division Leader spot? See above. Ed promises to be in there fighting on 144 MHz during the VHF SS.

Jim, WB4LJP/4, operating from his shack in Alabama comments he had a lot of fun and waited for the band to open but all was in vain!
