

Results, 1972 Novice Roundup

REPORTED BY RICK NISWANDER,* WA1PID/WA8VRB

THE NOVICE ROUNDUP has finally come of age. That's right, the February 5-13, 1972 installment of this annual event marked its 21st birthday. As the chart shows, NR participation has risen steadily during its short lifetime. Although we didn't surpass last year's record breaking Roundup, 624 logs were received at HQ (484 Novices, 122 Non-Novice and 18 check logs).

Competition for the section leader spot has increased. This year no less than 7 races were decided by 2,000 points or less, New Hampshire, Alabama and Colorado being the closest. First and second places were separated by 323, 559 and 793 points respectively in those races. The competition doesn't stop as you go down the list. Illinois provided a close race for 5th and 6th with WN9HAD edging out WN9GIW by 18 points and in Ohio 5th, 6th and 7th places were separated by a scant 311 markers. The closest race was in N NJ, where WN2CIQ edged out WN2QIR for the second spot by the paper thin margin of one point. Congratulations to WN0DYV who topped all entrants with a score of 66,555.

*Communications Assistant, ARRL.

A record number of sections were represented this year, 64 to be exact. Section awards will be in the mails on September 15. Stand by.

The shortened contest period (9 days instead of 16), the reduced operating time (30 instead of 40 hours) and mandatory time-offs were well received. Some felt the consecutive number should be reinstated. What is your opinion? Drop a note to a member of the ARRL Contest Advisory Committee (W1BGD, W2EIF, W3GRF chairman, W4UQQ, K5TSR, W6DQX, WA9UCE, W0HP, KH6IJ and VE2NV) and tell them what you think. Or, better yet, send your comments to HQ and we'll make sure each member of the CAC receives a copy.

To those of you who asked, there is as much QRM in the higher class bands during a contest. Use those crystals filters, audio filters, attenuators and listen hard for that new multiplier. If that doesn't work, WN6NSW seems to have come up with a solution: "The Novice Roundup was a pretty fun event. It teaches you the art of praying when the QRM hits."

Congratulations to all. Glad you could make it.

Soapbox

It is remarkable how far 75 watts will carry. — (WN6LSH). Wow! The most fun I've ever had on the air. — (WN7PRV/7). I heard a lot of higher class operators calling CQ NR in the course of the contest. I don't think that this is fair or considerate to the Novices. So for next year guys, how about giving our rockbound friends a chance. — (WB2ONZ). Murphy struck when I realigned my receiver and it ended up worse than when I started. — (WN7SKY). I am doctor and with the busy flu season I didn't get in too much on the air time. — (WN5EIC). The NR turned me into a contest man. — (WN3QJR). I picked up three new countries and ten more states for my WAS. — (WN6OKG). It was fun last year when the contact number was exchanged instead of the RST. — (WN5DML). The shock of the contest came when Vermont asked

WN0CEZ, Nebraska section leader, and mascot Loomis. We are told that Loomis likes to sit on the top of the rig and listen to the cw. Loomis is very nervous and the cw calms her down. How's that for shock therapy!

Tom, WN6KQZ, keyed his HW-16 to a division leader spot and second place in the NR from hilly San Francisco.

me to please QSL. — (WN6GCE). Sorry to see the lack of interest Novices have on 2 meters. — (WN2NRK). Now the XYL knows what a contest is. — (WNØBHF). Really blew my mind working a KL7 and a WH6 with my 20 watts. — (WN9IMV). Operators CQ far too long, I lost one person on 15 meters when he CQ'd right into a fade out. — (WN3RTY). Great contest. It was stimulating and challenging besides being fun. — (WN1NZT). I really enjoyed working the QRM. — (WN9FBR). Let's do it again next year. — (WN6GLZ). Imagine my disappointment...I worked DJ1US only to discover he was operating portable in 1 land. — (WN3RQB). Next year I will operate from my home QTH in Germany. — (DJ1US/W1). Being pressed for time, sometimes I had to eat while operating. The main tragedy of the whole contest was when my brother sat on my chicken sandwich. — (WN6NSW). Many thanks to the Generals who helped make this contest a success. — (WN4TIU). It was great to have W1AW answer my call. This is the one you always look for but never really expect to hear. — (WNØFAI). Happiness is working a ZD8 off the back of my beam in the NR. — (WN8LGF). All in all this was a great test for all the "poi pounders" out there. — (WH6HJE). I had problems with my dipoles and beam. Who ever heard of climbing the tower to cut your antennas to change bands? — (WN8IUK). In a way I'm glad it is over now. I just couldn't afford any more QSO's. At 6 cents a QSL card times 230 QSO's. . . — (WN7PDV). Enjoyed the NR even though my broken leg slowed me up a little. — (WN2AEY). Are QSOs with Nevada and North Dakota by sked only? — (WN6HHE). It was nice to make contacts with the General and higher class licensees. — (WN1OAS). The only thing wrong with school is that it takes up 5 days of the NR at 8 hours a day. — (WN2QEP). As always, the Novices did a tremendous job. — (WA2LOI). I found out that the NR was more fun than the DX Competition. — (WA7KZP). I think that the NR is an experience that all Novices should not miss. — (WN8IQT). Passed my General exam two weeks before the NR but luckily the ticket didn't come in time. — (WN2ADH). The NR went well, excluding the part where my antenna blew over. — (WN3PXH).

From left to right: You don't often see a division leader with such an enchanting smile. WN9FJT, Rosalie, using her winning form, placed fourth among NR participants and tops in Indiana. Sorry gentlemen, she is married to WA9AUM to whom the linear also belongs; WN8HJU, Bill, led 22 fellow Michiganders for the section leader spot and took the Great Lakes Division while he was at it; WN8III made West Virginia popular with his 514 two-ways. We hope Steve continues to be active in contest from his usually-scarce QTH.
