

Results, 1974 VHF Sweepstakes

CONDITIONS FOR THE 27th running of the January VHF SS, held January 5-6, were mediocre – to put it mildly. Although scores didn't climb greatly, participation was up in many parts of the country. Bad weather in Southern California (snow) and along much of the Eastern seaboard (ice) kept people indoors during the contest – which kept scores up, to some extent, despite the dismal conditions.

Only one divisional scoring record was set this time around – that by K8III with the top multiop score to boot. The chart on the next page gives all-time division highs for the January VHF SS. Many of those marks, especially those set back in the sunspot choked days of 1958, will be hard to topple.

This year some were confused by the time. Although time is no longer a part of the exchange and its inclusion is not specifically required in the contest rules, it is required by the FCC. Next year there will be an addition to the contest rules covering this point.

The WB4CXC multiop is a little unusual – it was composed of two husband and wife teams. CXC is married to WB4LSK and WA4DFV is the wife of WB4KMK. You know the old saying, "A family that contests together. . .".

Entries were down this year to 580. Awards are scheduled for a June 17 mailing.

Clubs

Well, Mt. Airy did it again – keeping alive their string of consecutive gavels started in 1961. That's 14 now!

The club competition in the VHF SS has been around as long as the contest itself. A few hours of research produced some interesting information.

Of all the clubs competing this year, only two were listed in the results of the first contest back in 1948. They are York Radio Club and South Jersey

WA2OTK

DIVISION LEADERS

Single Op.	Division	Multiop.
K3IPM	Atlantic	WB2LZD/3
K9OXY	Central	K9YHB
W0OYL	Dakota	
WB4JGG/4	Delta	WB4CXC
WB8IGY	Great Lakes	K8III
WB2ZVS	Hudson	W2SZ/2
K0MST	Midwest	
WA1IQJ/1	New England	W1KGZ/1
K7GWE	Northwestern	WA9DGM/7
WA6JUD	Pacific	
W4YEB	Roanoke	W4BFB/4
W5TDZ		
W9MHL/0	Rocky Mt.
WA4GCH	Southeastern
K6YNB/6	Southwestern	WA6UMI
W5QDB	West Gulf
VE2DFO	Canadian

Left: K2OWR who holds both the single op and multi op records in the Hudson Division. This year Bill ran another NNJ multiop effort and grabbed 4th place nationwide. Right: WA6MHZ. Pat used 6 and 2 meters to earn the top San Diego total. Next year he hopes to have 2 meter capabilities.

Front page 1974 Radio ADP

RA. In fact, SJRA holds the record for most club entries, having been in *every* VHF SS since the beginning — an unbroken string of 27 club entries. FB, indeed.

The following is a listing of all the clubs that entered this year's contest in order of decreasing club submissions. The number to the left of the club name is the number of years a VHF SS entry has been received, and those at the right represent the years in which an entry was received.

27	SJRA	48-74
24	Hampden Co.	49-63, 65-72, 74
24	Rochester	50-59, 61-74
23	Dayton ARA	52-74
21	York RC	48-61, 68-74
21	Lake Success	51-65, 67-71, 74
18	Mobile Sixers	57-74
18	Mt. Airy	57-74
17	6-M Club Chicago	58-74
15	S. Cal. VHF	59, 61-74
14	Dutchess Co.	60-72, 74
12	Albany ARA	57, 60, 65-74
9	Gloucester Co.	62-67, 71, 73-74
6	Suburban ARC	69-74
6	Whitman ARC	63-64, 71-74
5	Scioto Valley	63, 71-74
3	Parma RC	71-72, 74
3	Potomac Area VHF	72-74
2	Warren ARA	72, 74
1	Spartanburg ARC	74

Soapbox

I enjoyed the contest information exchange this time, made it more of a challenge. Would have been on 2 but my P & H final died first QSO. — (WA8TTS). Perhaps next year beams and a spinner will provide more excitement. A good band opening would also help. — (WB4NBK). My license, being first issued as 1NX on July 10, 1916 (giving me a check of 16 - 57 years ago), gave me many chuckles. I guess many figured that no one would still be alive with ck 16. So right here I will claim to have been the oldest ham to come up with a score of 1800 points in the East Coast. Am I? — (W3HB). [As far as I can tell you had the lowest check of anyone in the contest. FB. — Ed.] Really enjoyed this VHF SS. Having just moved down to Illinois from Minn. in September, it is quite an experience to tune the 2-meter band and actually hear signals. Propagation the first day in the Midwest was fair to average (which is poor) and the second day was average to YUK! It really added a lot to include the year licensed to the exchange. I'm all for continuing that particular feature. — (WB9NLW/WØMJS). This was my first contest from this location (ex-W2EWC) and I must say things were very much different than they were when I was located in NJ. I ended up on the receiving end of a 6-meter pile-up I'll never forget. My apologies to all those stations I didn't get to work. — (WØOYL). Conditions were sporadic, but the fog was solid from Ground Hog Mountain, Va. — (W4BFB/4). Fantastic! Beautiful opening from here to East Coast and points in between during Sunday afternoon and night. — (WAØCSL/0). Best January SS in a long time. FB conditions. — (WA1IQJ/1). The hand-writing on this will be even worse than usual. Reason — the QTH is the 11th

floor of Hartford Hospital. Having participated in every VHF contest, of all kinds, I couldn't let a hospitalization keep me out of this one. With help from WA1NBR I was able to work 3 stations on .52 simplex FM and keep my string unbroken. — (W1HDQ). [Ed had a spinal disc operation but is now very much up and around. — Ed.] Much better participation on 2 meters than I expected. — (WB2HDS). I like the new format. — (WA1MJD). Mixed feelings about the new message form. The simplification — ending of time consuming discourse on the time (some neophytes felt agreement was required, others felt it was necessary to justify differences), getting the November and January exchanges to look alike, and learning when the other guy was licensed are all to the good.

Using only 6 meters Tom, WA8TTS, garnered 83 QSOs in Ohio. As the first soapbox comment puts it, he had a bit of trouble on 2.

However, we are getting further away from the original concept of exchanging an amateur type message preamble (for practice), and leaving out the signal report has the distinct disadvantage of eliminating essential QSL information from the log. Even though of often questionable accuracy it was better than none at all. — (K1CHY). Wish I had ssb on 6. — (K2OVS). Hoorah for the new rules. — (K9KQR). Minnesota on 6 with a triband beam? Wow! — (WA3NAF). Sure could have used a good opening to any area for an extended period. — (WB8BGY). The boys in the Northeast didn't seem to be listening for the weaker signals. At least 100 different 1, 2 and 3 land stations were heard by myself and other NC stations (many for the entire two days) with only a handful being worked. — (K4LWZ). I was very disappointed with the lack of 2-meter cw and ssb stations. All of the 2-meter activity seemed to be on FM. — (K9DZS). This is the 5th year for us to be at this fire tower on the Tenn-NC line. Down below we had been covered with rain and fog for days. We suddenly broke into beautiful weather above 3000 feet (tower is at 4860 feet) and erected antennas in shirt sleeves. Some contrast to the usual below-zero weather we've had in the past. — (W4ZZ/4). Not much action. Scatter was at its poorest. — (WA6JUD). Activity was best I've seen for a winter contest. — (WB2ZTD). Hoping more amateurs from Vermont would send in logs. — (K1GYT). Four feet of snow in the Southern California mountains Friday night closed every last mountain road. I ended up operating from a residential neighborhood in the Palos Verdes hills overlooking L.A. instead of a planned site 8500 feet up in the mountains. — (K6YNB/6). As far as I have been able to ascertain through WPa contacts, I believe that I was the only XYL in this area working the contest. — (WA3VQV). Tried to operate from Mt. Diablo but got snowed out so went home and got on just for the fun of it. — (K6GSS). Being 200 plus miles

south of Philadelphia, few stations hear, or listen, for us down here. Next year we would like to remind the gang up there to stop QRming each other, turn your beams south and work us. We can hear you! — (WB2LAI/4). I think everybody else would be more interested in their RST than when I got my license. — (WB4JGG/4). The old 6-meter a-m rig, rock bound on 50.113, did a good job. It's like fishing with a cork and worm — you have to wait until someone gets close enough. — (W8EVY).
