### **REPORTED BY RICK NISWANDER,\* WA1PID**

THE 23RD ANNUAL NOVICE ROUNDUP held February 2-10 was again met with enthusiasm. Log returns were up slightly – 521 logs (386 Novice, 103 non-Novice and 32 checklogs) were received this year. Sections represented totaled 64 – tying the all-time record set in 1972. This year we had some goodies such as WI, KZ5, ND, SD, WY, and HI show up in the results. No less than 5 entries were received from Hawaii!

The closest race this year was in Hawaii where the top two were separated by 226 points. Other close contests were recorded in Arizona and Minnesota. In ENY, second and third spots were separated by 87 points and in ILL, 8th thru 11th places were only 786 points apart.

Significant this year is the fact that a YL took the top spot, WN3UTA topped the contest with a fine 77-K effort from MDC. Madeleine's score as well as multiplier total are new records. As far as we can tell this represents the first time a YL or XYL has ever been top scorer in an ARRL contest. FB, indeed!

We always realized that the NR was good healthy fun, but we never thought of calling it family fare. After the example of the Ferguson family from Missouri we will have to start billing the NR as fun for the whole family. WNØJXD, WNØJXE and WNØJXF (Nancy, John and Mark Ferguson, respectively) managed to get their rig scheduling problems worked out with John topping the family and also the state with a fine 32-K score. Nancy and Mark came in 6th and 7th. Oh yes, the OM of the group is WØQWS who appar-

ently couldn't get close to the rig since we didn't get a log from him. In the 1954 NR he was section high as WNØQWS. Like father, like son.

A brother team made its mark in the SF section. WN6WAE and WN6YFD (both confined to wheelchairs) took turns operating the one rig and greatly enjoyed the contest.

Non-Novice CQing again raised Novice wrath. Thought may be given to printing a list of those non-Novices heard calling CQ a number of times during next year's contest. Give the Novices a break – don't call CQ *unless* you are a Novice.

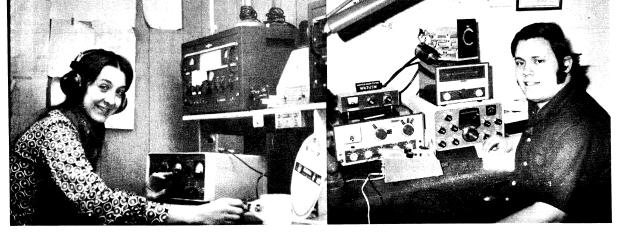

Awards are scheduled for a September 15 mailing.

It figures that the NR would be on the only decent week to go surfing. – (WH6IBU). Very good warm-up for the General class code test. – (WN $\emptyset$ IZX). Got those last states needed for my WAS as a Novice. Nice note on which to end a fantastic Novice career. – (WN4CTL). Thought the contest was going fine until I walked outside and found my antennas on the ground. Why don't they stay where you put them? – (WN2HPY). Sometimes it got kinda tough apparently being the last rock-bound Novice left on the face of the earth. – (WN $\emptyset$ IZ $/\emptyset$ ). Us XYLs have it a little rougher than the OMs. Koby, Lee, my little girl, crying in one ear while a faint cw signal straining to be heard in the other and the OM wanting his lunch. . . how much can one person take? – (WN $\delta$ BAY). Big thanks go to the higher class licensees who gave Novices a real boost in their scores. Without them

Numbers one and two in MDC and one and eleven in the country are WN3UTA, Madeleine (left), and WN3USW, Bill (right). Madeleine set new multiplier and final score highs during her country topping effort. Bill had trouble on 40. He said, "Seems as if I could never make any solid connections there. Either the CQ NR went unheard or a 'friendly' op would zero in on the frequency after my CQ with one of his own. It must be the broadcast QRM that drives 40 meter amateurs to act that way." You might have the answer Bill.

I'd be groveling around in last place. I worked an ON4 who gave me a  $589 \ldots$  more out of kindness than fact, I presume. - (WN9LWN). I would try for code proficiency fun this Wednesday night but I am running for school board and the election is Wednesday. - (WN2JOC). Based on last years results, I have no chance of winning but, on the other hand, I believe that all entrants turn out to be winners in one way or another. - (WN8PKC). So many folks were sending "in ILL" or "in OH" or whatever their section was that many ops asked for a repeat when I sent "579 IND

BK" wondering where in blazes "D" section was! – (WN9LHO). I missed the last two days of the Roundup because of a National Guard drill. Seems they always come up at the wrong time. – (WA5TFE). Hastily erected sloper for 15 helped in the last few hours. – (WN4BVK). Really enjoyed the February madness. – (WN4GHU). Ya gotta admit that there are lotsa Novices around who are darn good ops. – (WN2LNA). I wish 15 meters would be this active during the other 51 weeks of the year. – (WN3VBJ). My fist only gets 20 hours to the gallon. – (WN2QDR). Was pleased to find many of the rarer sections better represented in the NR than in the SS. – (WB2FKF). My first NR since leading the Great Lakes Division as WN4SIJ in 1971. Didn't seem to be as much activity... or maybe my receiver is just better and I didn't notice the QRM as much. – (WB4SIJ). What can the ARRL do about cancelling school for NR week? – (WN3UJP). Thanks to the Generals who were on from hard to get places. – (WN3VWJ). Even worked W1AW! – (WN2PCF). There are so many crack operators in the Novice ranks today that it sounds more like a SS than an old time NR. – (K5EJC).
