

2022 ARRL Field Day Results

Despite reduced propagation, nearly 30,000 individuals participated in Field Day this year, making over 1.2 million contacts.

ARRL Director of Operations
Bob Naumann, W5OV;
ARRL Radiosport Manager
Bart Jahnke, W9JJ, and
ARRL Contest Program Manager
Paul Bourque, N1SFE

The 2022 ARRL Field Day showed a return to pre-COVID environments, with more relaxed protocols for social gatherings. There were modest participation increases in portable (Classes A and B), mobile (Class C), and Emergency Operations Center, or EOC (Class F), station activations. Despite the event weekend offering poorer propagation than usual, nearly 5,000 entries were submitted from ARRL and Canadian Sections, plus entries from several DX countries.

In January 2022, ARRL commissioned a survey about the event, which was sent via email to individuals and clubs who submitted entries for the 2020 and 2021 Field Days. Based on a consensus derived from the more than 3,000 survey responses, the Field Day rules were updated to include: limiting the highest power level to 100 W (removing the up-to-legal-limit 1 × power multiplier), allowing Class D (home) stations to continue to earn points for contacts made with other Class D stations, continuing club aggregate scoring in future events (i.e., the scores of individual stations are combined under the score of a single club), and revising our media publicity criteria to require that publicity be obtained (not just attempted), where any combination of bona fide media hits would qualify for the bonus points. Some publicity examples that would meet the bonus criteria include posting the details of your upcoming or ongoing Field Day activity or results on a club or news media site, or a social media platform; photos and videos are encouraged.

The crew at the Platinum Coast Amateur Radio Society, W4MLB, in Melbourne, Florida, entered the 2022 Field Day in the 4A category. [Platinum Coast Amateur Radio Society, W4MLB, photo]

Event Statistics

Due to many areas of the country loosening restrictions on gatherings in public spaces, there was an increase in the number of groups that participated as Class A (portable stations with a three or more person club or non-club group) and Class B (portable stations with a one or two person club or non-club group) entries, comprising over 37.1% of the total number of entries. Other mobile stations operating as Class C, as well as EOC stations in Class F, represented another 4.4% of portable (field) participation.

Class D (home stations, commercial power) and Class E (home stations, emergency power) represented the remaining 58.5% (down from 67% of the total entries in 2021).

This year, there was a total of 4,929 entries submitted (including checklogs), and a reported total of 29,679 participants. While the total number of entries decreased by 17.5% over 2021, the total number of participants increased by 11%, with the number of participants rebounding toward pre-pandemic numbers (there were 36,420 participants in 2019). This

Transmitter Count by Class

Class	Class Definition
A	Three-person or more club/non-club portable using emergency power
AB	Per above, with battery or alternate non-generator power source
AC	Per above, but with commercial power
B1	One-person club/non-club portable using emergency power
B1B	One person per above, with battery or alternate non-generator power source
B1C	One person per above, but with commercial power
B2	Two-person club/non-club portable using emergency power
B2B	Two persons per above, with battery or alternate non-generator power source
B2C	Two persons per above, but with commercial power
C	Mobile stations
D	Home stations using commercial power
E	Home stations using emergency power
F	EOC stations

year's participant numbers were about 3,000 above the count in 2020.

Looking at the number of contacts reported in 2022, there was a decrease of 11% over what was reported last year. There was increased solar activity leading up to Field Day weekend, which caused propagation on the 20-, 15-, and 10-meter bands (especially 15 and 10 meters) to be significantly reduced.

2022 Field Day Overall Statistics

		% Change
Number of Participants:	29,679	11%
Total Entries:	4,929	-18%
Checklogs:	126	24%
CW QSOs:	524,900	-13%
Digital QSOs:	284,529	-4%
Phone QSOs:	465,088	-12%
Total QSOs:	1,274,517	-11%

Class D/Class E — Stations operating from home, with either commercial power (Class D) or emergency power (Class E): 2,884 entries (58.5%).

Class F — Stations operating from or as EOCs: 157 entries (3.2%).

Entries by Class Summary

Class	Entries	% of Total
A	1,209	24.5%
B	621	12.6%
C	58	1.2%
D	2,130	D & E: 58.5%
E	754	
F	157	3.2%
Total	4,929	

Rich Pecoroni, WA1FKP, operated with his 13-year-old granddaughter Riley in the 1D category during the 2022 Field Day. [Rich Pecoroni, WA1FKP, photo]

Activity by Class

Class A — Club or non-club groups of three or more people who set up temporary/portable Field Day sites away from their usual station locations: 1,209 entries (24.5%).

Class B — Club or non-club groups with one or two people who set up temporary/portable Field Day sites away from their usual station locations: 621 entries (12.6%).

Class C — Mobile or rover operators from vehicles, bicycles, and even boats: 58 entries (1.2%).

Haj Hartman, K4ZJ, and Sandy Anderson, WD4RIS, worked the public information booth for their 2022 Field Day operation at their Emergency Operations Center, operating as K4DSR in the 2F category. [Deep South Amateur Radio Club, K4DSR, photo]

The Saturday-night sunset over Gary Penley's, K7KA, 3A Field Day site at the Uinta National Forest in Utah. [Photo courtesy of Darryl Hazelgren, K7UT]

Checklogs — 126 entries were listed as checklogs if they ran more than 100 W, were DX stations, or were missing the required list of calls sorted by band and mode (also known as a *dupe sheet*) after reminder emails were sent to obtain the list. Checklogs are acknowledged at the bottom of the page at www.arrl.org/logs-received.

This year, over 98% of the 4,929 entries received were submitted via the web applet, which is roughly the same as in 2021. Based upon your feedback from previous years, some minor changes were made to the applet for clarity, making it easier than ever for you or your group to submit your Field Day results to ARRL.

Several entrants posted their personal stories to the Field Day soapbox at <http://field-day.arrl.org/fdsoapbox.php>.

Looking Ahead

Many groups and individuals are already looking forward to Field Day 2023, and are actively planning for the event. Consider sharing what your strategies will be for next year with the amateur radio community via the ARRL Field Day Facebook page, at www.facebook.com/groups/arrlfd.

The 2023 ARRL Field Day will take place on June 24 – 25.

Number of Participants by Class	
Class A	22,090
Class B	729
Class C	76
Class D	2,878
Class E	1,412
Class F	2,494
Total	29,679

During the 2022 Field Day, the Northeastern DX Club, KP4DXC, proudly displayed the Amateur Radio Field Day Proclamation by Rio Grande, Puerto Rico, Mayor Angel "Bori" González Damudt. The team was also visited by a municipal officer. From left to right: Gilberto Quiñones, KP4GQ; Eddie Figueroa, WP3EF; Hector Melendez, KP4FGL; Officer Isander Perez; Rio Grande, Puerto Rico, Mayor Angel "Bori" Gonzáles Damudt, and Jose F. Lopez, KP4JFL (now NP4VO). [Northeastern DX Club, KP4DXC, photo]

John Reilly, N0TA, and John Bredehoft, K0FTC, operated in the 2B category this year in Colorado, when some locals came by to see what all the ruckus was about. [John Bredehoft, K0FTC, photo]

Scores

Score listings are grouped according to the number of transmitters in simultaneous operation and their entry class. The listings show club or group name, call sign(s) used, total number of QSOs, number indicating power output used (5 is less than 5 W, 2 is less than 100 W), number of participants, and total score including bonus points and ARRL Section. Entries are listed from highest to lowest claimed score in each class: Class A stations are clubs or groups portable with three or more participants; Class B stations are portables with one or two participants (when there are two operators, the second operator's call sign is listed in parentheses, if it is known); Class C stations are mobiles; Class D stations are home stations using commercial power; Class E stations are home stations using emergency power, and Class F stations are EOC stations. Due to the high volume of entries, this listing contains only Class A, B, C, and F stations (these stations are often portable or mobile, representing operations done outside of home locations, and are most representative of the "field" in this communications exercise). Class D and E home stations and aggregate scores will be posted in the digital edition of QST and on the ARRL Field Day Page at <http://field-day.arri.org>.

The Society of Newfoundland Radio Amateurs, XJ1AA, entered in the 2A category this year, and set up their Field Day site near Cabot Tower on the Signal Hill National Historic Site in Newfoundland and Labrador, Canada. This was the location of Marconi's reception of transatlantic signals. A celebratory contact was made between Inverhuron Ham Radio Club YL Remote, VA3YLR (with Kincardine Deputy Mayor Randy Roppel), and XJ1AA (with St. John's City Councillor Carl Ridgeley). The contact can be seen on YouTube, at www.youtube.com/watch?v=NT31wSB9vh4. [Photo and video courtesy of Dave McLennon, VO1LM]

Dan Atchison, N3ND; Wayne Starnes, KU4V, and Mike Barts, N4GU, operated in this year's Field Day using the Corncrib Contest Club call sign, AG4TT. During the event, they saluted two of their friends who couldn't be with them this year: William Roberts, AA4NC (SK), and Jack Ritter, W0UCE (SK). [Mike Barts, N4GU, photo]
