

2023 10 GHz and Up Full Contest Results Coming Soon!

Due to a log-checking issue, the updated full results article is currently still in production. This has been corrected in the online edition of February, 2024 QST. The corrected Line Scores and a PDF of the updated QST article have been posted here. ARRL apologizes for the error.

Once it is complete, the full results article will be posted here. Watch this page for detailed analysis, photos, and stories from fellow contesters.

Downloadable certificates and a searchable score database are available at <http://contests.arrl.org> by clicking on the "Certificates" tab located at the top of the page, and "Scores" tab located on the left side of the page.
