

2023 ARRL Field Day Results

Despite heat and inclement weather in some areas, more than 30,000 individuals participated in Field Day this year, making 1.25 million contacts.

ARRL Director of Operations

Bob Naumann, W5OV; ARRL Radiosport Manager Bart Jahnke, W9JJ, and ARRL Contest Program Manager Paul Bourque, N1SFE

The 2023 ARRL Field Day showed patterns of participants returning to the “field.” In 2022, Class A and B field participants represented 37.1% of all entries, while in 2023, that number increased to 41.3%. Home station Class D and E entries dropped from 58.5% in 2022 to 53.8% in 2023. This shift suggests that 5.2% of this year’s station participants who were compelled to stay home in 2022 returned to group participation in 2023. The remaining categories of Class C (Mobile) and Class F (Emergency Operations Center, or EOC) remained essentially unchanged in 2023.

A 2% reduction in total QSOs — perhaps driven by fewer home station participants, who instead joined field groups (Class A and B) was reported. The same may be true for the roughly 10% reduction in CW QSOs made. Field station operators try to strike a balance in operating modes, while home station operators may feel more comfortable pounding the key for a higher CW score. Digital and phone QSO levels remained comparable to the levels in 2022. Yet, the numbers between CW and phone QSOs are on par with each other (digital represents a 40% lower activity level than analog modes).

A handful of updates and changes were implemented for 2023, which included the Radio Amateurs of Canada (RAC) updating a few of their Sections. They replaced Maritime (MAR) with New Brunswick

K6C was activated by members of the Clairemont Repeater Association in the 5A category from the Orange Section in Santa Ana, California. They were joined by local officials. Photographed are (back left to right) Brian Olsen, AG6UH; Kathryn Kosters, K6KTY; Jeff Van Es, N6JSV; Eric Kosters, K6EDK; (front left to right) Steven Root, KF6GJC; Senior Management Analyst of the Public Safety Division, Sharlyn de la Paz; Todd DeVoe, KI6RBW, and Jade Jourdan, K6JDJ. GOTA coach. A power multiplier of one was reintroduced as 500 W (transmitter PEP output) for Class A, B, and C stations only.

There was an increase in the number of groups that participated in Class A and B (portable stations with three-person or more club/non-club group) entries, comprising more than 37.1% of the total entries. Mobile stations operating as Class C and EOC stations in Class F represented another 4.4% of portable participation. Class D (home stations, commercial power) and Class E (home stations, emergency power) represented the remaining 58.5%, down from 67% of the total entries in 2022.

This year, there was a total of 4,555 entries submitted (including 113 checklogs) and a total of 31,300 participants. This year saw better propagation — a trend we expect to continue through the anticipated Solar Cycle 2025 peak.

Activity by Class

Class A — Club or non-club groups of three or more people who set up temporary/portable Field Day sites away from their usual station locations: 1,271 entries (28.6%).

Class B — Club or non-club groups with one or two people who set up temporary/portable Field Day sites away from their usual station locations: 565 entries (12.7%).

Class C — Mobile or rover operators from vehicles, bicycles, and boats: 58 entries (1.3%).

Class D/Class E — Stations operating from home, with either commercial power (Class D) or emergency power (Class E): 2,388 entries (53.8%).

Class F — Stations operating from or as EOCs: 160 entries (3.6%).

Checklogs — 113 entries were listed as checklogs if they were missing the required list of calls sorted by band and mode (also known as a dupe sheet), showing that no duplicates were counted twice in their total QSO counts, or by simply sending us the log (even after reminder emails were sent to obtain this list). Checklogs are acknowledged at the bottom of the page at <https://field-day.arrl.org>.

Sweet Fruits On Air Amateur Radio Club, KP4SFA, operated from Puerto Rico in the 2F category.

This year, more than 98% of the 4,555 entries received were submitted via the web applet, roughly the same amount as in 2022. Based on your feedback from previous years, some minor changes were made to the applet for clarity, making it easier than ever for you or your group to submit your Field Day results to ARRL.

Several entrants posted their personal stories to the Field Day soapbox at <https://field-day.arrl.org/fdsoapbox.php>. Please tell us your stories!

Allison Tucker, 11, operated the Williamsburg Area Amateur Radio Club Get On The Air (GOTA) station with GOTA coach Greg Pula, K3RM, during 2023 Field Day. Allison made 11 contacts. [Dan Ewart, WG4F, photo]

Looking Ahead

We are already looking forward to 2024 Field Day. Consider sharing your strategies for 2024 with the amateur radio community via the ARRL's Field Day Facebook page at www.facebook.com/groups/arrlfd. 2024 Field Day will occur on June 22 – 23 (always the fourth full weekend of June). As you read this in December, remember Field Day is only 6 months away!

Three generations of the Burns family operated from the Pine State Amateur Radio Club in the 3A category from Maine during 2023 Field Day. Pictured from left to right are Evan H. Burns, KC1CMV; Gerald B. Burns, III, K1GUQ, and Gerald B. Burns, Jr., K1GUP. [Wesley Linscott, WA1IOG, photo]

Emily Tucker, 16, was pleased with her seven GOTA station contacts at the Williamsburg Area Amateur Radio Club 2023 Field Day operation with GOTA coach Chuck White, AI4WU. [Dan Ewart, WG4F, photo]

Scores

Score listings are grouped according to the number of transmitters in simultaneous operation and their entry class. The listings show club or group name, call sign(s) used, total number of QSOs, number indicating power output used (5 is less than 5 W, 2 is from 6 W to 100 W, 1 is between 101 W and 500 W), number of participants, and total score including bonus points and ARRL Section. Entries are listed from highest to lowest claimed score in each class: Class A stations are clubs or groups portable with three or more participants; Class B stations are portables with one or two participants (when there are two operators, the second operator's call sign is listed in parentheses, if it is known); Class C stations are mobiles; Class D stations are home stations using commercial power; Class E stations are home stations using emergency power, and Class F stations are EOC stations. Due to the high volume of entries, this listing contains only Class A, B, C, and F stations (these stations are often portable or mobile, representing operations done outside of home locations, and are most representative of the "field" in this communications exercise). Class D, E, and F home stations and aggregate scores will be posted in the digital edition of *QST* and on the ARRL Field Day Page at <http://field-day.arrl.org>.
