

2024 ARRL 10-Meter Contest Results

The results of the December 14 – 15, 2024, event.

Solar Cycle 25 rose to the occasion, solidifying the ARRL 10-Meter Contest as one of the highlights of the contest season. With the record-setting 6,661 submitted logs, this was the biggest ARRL contest of the year, with more than 2.03 million contacts reported. There were more than 10% more logs submitted from the United States compared to last year, and incredible scores were achieved from every corner of the country.

Band conditions were excellent, and space weather did not intrude much, with the solar flux index in the upper 160 range for the entire weekend. E-skip was consistently long, with conditions favoring east-west propagation in the Northern Hemisphere.

There was fierce competition in almost all of the categories, with many operators spending much of their daylight hours in front of the radio. There were 176 entries, with final scores reaching more than one million points compared to 85 in 2023 and 74 in 2022. Almost 2,000 participants took advantage of the recently introduced Limited Antenna Overlay, and there was a healthy youth competition. Fifty-five participants noted in their entries that they were age 25 or younger.

Preston Moore, N5YIZ, combined operating in the 2024 ARRL 10-Meter Contest with a Parks on the Air activation at Galveston Island State Park in Texas. He made 813 contacts in the event, taking home second place in the West Gulf Division in the Single Operator, Phone Only, Low Power category. [Preston Moore, N5YIZ, photo]
