

Field Day 2022  
 Central Coast Amateur Radio Group  
 931 Rose Court Grover Beach, CA 93433  
 Field Day at Elm Park in Arroyo Grande

CW Station operating at 100 watts from 100% Solar power on 10m to 80m.

Hustler 10m to 80m Vertical Trap Ground plane with 3 sets of radials on each band tied to the guy ropes.

3 of the Official ARRL signs were posted at the Elm Street Park Field day location in Arroyo Grande, CA

Cindy Brandenburg Our Multi Media and Press release member.

CCARG members working on the solar panel.

Operator K6AYK Dave  
 Logger WB6EEF Dee XYL

Our Table with the Visitors Log Sign in, and ARRL Handouts: What is Field Day, What is ARRL, and how to join. We also had the Activity Guide hand outs from the City of Arroyo Grande Recreation and Parks.

We had many young future Hams try our Educational Station to send Morris code with the key and tone amplifier to spell their first name and also send a SOS.

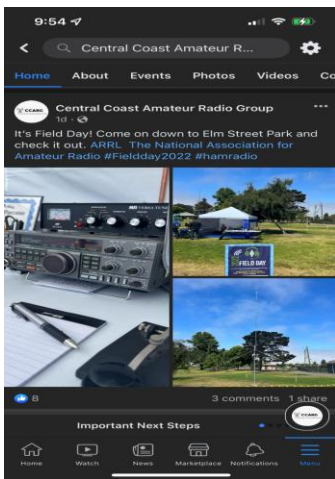

Central Coast Amateur Radio Group 931 Rose Court, Grover Beach, CA 93433  
 Club Members: #1 David Qualls, K6AYK, #2 Dee Qualls, WB6EEF, #3 Jon Yuriar, KN6OZL,  
 #4 Emerito Cabrerros, N6ETO, #5 Bill Rea, WA6LJR, #6 Charles Looney, N6XXN,  
 #7 Steve Vierra, KI6FW, As of 06-29-2022

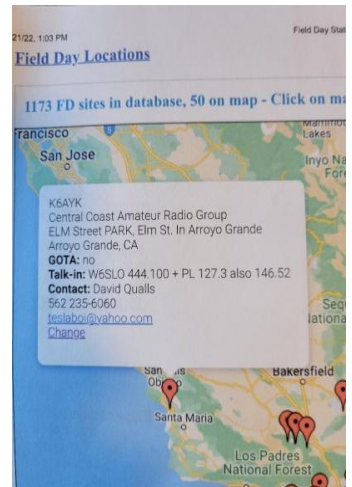

2M and 440 GOTA Station operator KN6OZL. Jon was also running from solar power.

Vertical Ground Plane 10 thru 80 meters.  
 160 watts Solar Panel for 100 watts HF Station.

20 meters CW was tough with pile ups and very poor band conditions due to the very high sun spots eruptions on field day. Because of the 1 operator, 1 Transmitter class, K6AYK operated 60% on CW and 40% on SSB at 100 watts all solar power from batteries.
