ARRL Field Day – Official Served Agency – American Red Cross Visit

Thank you for inviting your served Agency – The American Red Cross of <Region or Chapter> to view your Field Day Operation.

You showed the capabilities of Amateur Radio to work in less than optimal conditions - and using emergency power. These conditions might very well be present in a real emergency.

What a great way to test and maintain your skills to meet the challenges of emergency communication. You have built our confidence that we could call on you in an emergency coupled with a communication outage or overload.

Thank you for being "Red Cross Ready"

Ed Duchac
American Red Cross Serving Permian Basin Chapter
Central and South Texas Region
