

## ARRL Field Day 2021 – CNYARC (Central New York Amateur Radio Club)

June 26-27, 2021

The weather was wonderful, and we had a great time. We were able to run 4 stations and doing QSO's as 4A, while using generators for 3 stations and battery power for the 4<sup>th</sup>. We were located at Delta Lake State Park in the town of Western, in Oneida County, New York. We had about 5 visitors, but only 2 signed in. This year we had some difficulty getting traffic out and getting the W2AW bulletin, but that didn't stop us from working over 100 stations.

We were on Generator and Battery the entire time with all equipment that was operating. This year we had an invert V G5RV on a spider beam tower and all other antennae were run between trees or into trees. Stations were heard and contacted as far West as California, the Pacific coast and into the UK, Europe, and all up and down the Atlantic coast.

Overall, we did well for our little club and was able to work some stations, fix some issues, communicate, publicize ourselves, and have a good time doing it. It was a wonderful opportunity and location for us to work the globe as best we could and build club spirit at the same time. We were happy to have some visitors and to have a liaison work with those that did visit. We hope this document shows our hard work and effort to provide a safe and enjoyable Field Day 2021 while adhering to the standards of the ARRL.

- 73 CNYARA

- President Marc Araujo

Tallies:

119 QSOs

54 on 20m SSB

27 on 40m SSB

38 on 80m SSB (35 of these were done by K2CMP on 5w w/Battery)

We had 4 Participants actively working QSOs and one liaison.

KR2HWK, KC2FEV, W2TSQ, K2CMP
