

ARRL Field Day 2022 – CNYARC (Central New York Amateur Radio Club)

June 25-26, 2021

The weather was wonderful, and we had a great time. We were able to run 4 stations and doing QSO's as 4A, while using a generator for 1 station and battery power for the rest. We were located at Oxbow Falls Park in the town of Lincoln, in Madison County, New York. We had about 10 visitors. This year we were able to get our traffic out and missed the W2AW bulletin, but that didn't stop us from working over 100 stations.

We were on Generator and Battery the entire time with all equipment that was operating. This year we put up random wires and some coil antennas. We were able to get some good contacts all around plus a DX and a satellite. Had signs out and overall did well and had a good time.

Overall, we did well for our little club and was able to work some stations, fix some issues, communicate, and have a good time doing it. It was a wonderful opportunity and location for us to work the globe as best we could and build club spirit at the same time. We were happy to have some visitors and to have a liaison work with those that did visit. We hope this document shows our hard work and effort to provide a safe and enjoyable Field Day 2021 while adhering to the standards of the ARRL.

- 73 CNYARC

- President Marc Araujo (KR2HWK)
