

7.3.1. 100% Emergency Power

All stations were powered one of 3 gasoline powered generators. Two of the generators had an auxiliary gas tank feeding the main generator tank by a fuel hose. The auxiliary tanks were located away from the generators so that fuel could be added without the danger of splashing gasoline on a hot generator. This reduced the fire danger during refueling.

7.3.3. Public Location

We were located in a field behind the Rosemary Kennedy School. We had an illuminated sign advertising our presence so we could be easily located by the public day or night.

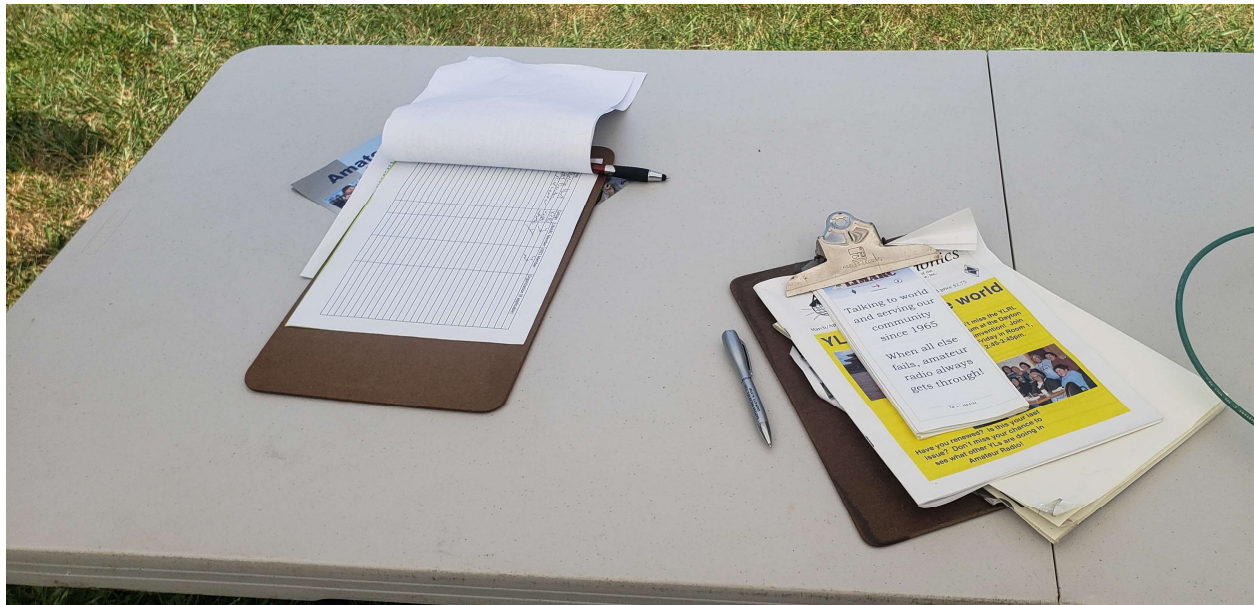

7.3.4. Public Information Table

At the entrance to the site we had a public information/sign in table.

Close-up of public information/sign in table. Because of the wind we had to keep the literature on a clipboard or it would be blown away.

7.3.5. Message Origination to Section Manager

7.3.8. Alternate Power

Here is the equipment we used to operate on battery power.

The unit on the left is a Gyll 48v (52.1 nominal) LiFePO4 battery pack. The unit in the center is a 300watt Growatt sine wave inverter powered by the Gyll battery. The inverter powered a 120v AC to 12v DC supply used to operate the 20 meter phone radio.

The yellow unit on the right is a 48v LiFePO battery pack used to power an inverter. Because of power distribution problems in the van containing our network equipment, this equipment was used to power the network equipment in the van.

Jeff N2ION operating the 20m phone station using battery power.

The station was powered by batteries between 1400-1430. The contacts highlighted in yellow were made using battery power.

7.3.9. W1AW Bulletin:

QST QST QST DE W1AW W1AW W1AW

SPCL CW 9 FOLLOWS

QST DE W1AW

HR SPCL CW 9

FROM ARRL HQ

NEWINGTON CW JUNE 25, 2021

TO ALL RADIO AMATEURS

SINCE ITS BEGINNING IN 1933 EACH YEAR ON THE FOURTH FULL WEEKEND IN JUNE, AMATEUR RADIO OPERATORS GATHER TO PARTICIPATE IN FIELD DAY. IT IS THE LARGEST HAM RADIO OPERATING EVENT IN NORTH AMERICA. WITH THE WORLDWIDE PUBLIC ASSEMBLY CHALLENGES OF 2020 BEING RELAXED THIS YEAR MANY CLUBS AND GROUPS ARE GATHERED TOGETHER ONCE AGAIN IN PUBLIC AREAS, WHILE OTHERS ARE PLANNING TO OPERATE FROM THEIR HOME STATIONS AND CONTRIBUTE THEIR SCORES TO THEIR CLUB.

AS QST W1AW

WHETHER YOUR PARTICIPATION WITH YOUR FELLOW CLUB MEMBERS OR AT HOME WITH YOUR FAMILY, FOR MANY HAMS FIELD DAY IS THE HIGHLIGHT OF THEIR YEAR. HOW YOU OPERATE FIELD DAY IS ENTIRELY UP TO YOU, SHOULD YOU CHOOSE TO OPERATE 80 METERS CW OR PERHAPS 80 MTRS PHONE 6 MTRS OR 2 METERS OR 70 CENTIETERS OR MANY OF THE OTHER POPULAR DIGITAL ONES SUCH AS FT8/MSK, OR PSK THERE IS SOMETHING FOR EVERYONE. FIELD DAY IS AN OPPORTUNITY TO SHOWCASE YOUR SKILLS TO THE PUBLIC AND DEMONSTRATE WHAT AMATEUR RADIO IS ALL ABOUT. INTRODUCE A NEIGHBOR, FRIEND, OR YOUR CHILDREN TO THE HOBBY THAT WE ALL ARE PASSIONATE ABOUT.

AS QST DE W1AW

LAST YEAR WE SHOWED OUR CREATIVITY BY GETTING ON THE AIR FOR FIELD DAY IN AN ENVIRONMENT THAT WAS UNPRECEDENTED. TO DEMONSTRATE OUR VERSATILITY AND SHOW THE PUBLIC HOW AMATEUR RADIO CAN THRIVE FOR YEARS TO COME. THE 2021 FIELD DAY RESULTS ARTICLE WILL APPEAR IN DECEMBER QST. GOOD LUCK AND 73.

AR DE W1AW

7.3.11. Site Visitation by an elected governmental official

The following is the invitation that we sent to Nassau County Legislator, Tom McKeivitt inviting him to our Field Day site:

Subject: Invitation to Amateur Radio Field Day
Date: Mon, 24 May 2021 11:53:41 -0400
From: Lew <n2rq@optonline.net>
Reply-To: 'n2rq@limarc.org' <n2rq@limarc.org>
To: Schaefering, Lynn <LSchaefering@nassaucountyny.gov>, Field Day Availability <fieldday@limarc.org>

Hi Lynn,

It was nice talking with you this morning.

With pandemic restrictions being eased, I want to invite Tom (Nassau County Legislator, Tom McKeivitt) to the LIMARC (Long Island Mobile Amateur Radio Club) annual Field Day operation on the weekend of June 26-27, in the field behind the Rosemary Kennedy BOCES school.

Since our FD committee started planning weeks ago, it was anticipated that we would have significant restrictions because of COVID-19. Therefore, we chose to make our operation more streamlined than usual. This will be closer to one of the main themes of FD, Emergency Preparedness. We plan to have at least 6 stations operating as in the past, with antennas that can be improvised and put in service within minutes instead of hours. Practicing these techniques should make us better prepared to provide communications in the event of a major disruption caused by catastrophic events.

In recent years, some members would begin setting up towers and antennas on Friday and camp in the field. Sometimes they were joined by Boy Scouts. This year, since we will not be putting up towers, we will begin our setup on Saturday morning. Operation is scheduled to begin at 2 PM Saturday and end at 2 PM on Sunday.

Usually, anyone in the public is welcome, however, our permit from BOCES, does not allow us to have anyone younger than 18 years. I think this may be a disappointment for Tom's children who have attended a number of times.

This is a link to a PSA from 2019: [www.arrl.org/files/file/Field-Day/2019/ARRL Field Day 2019 PSA.mp4](http://www.arrl.org/files/file/Field-Day/2019/ARRL%20Field%20Day%202019%20PSA.mp4)

This link goes to our national organization, the ARRL. Field Day (arrl.org)

Thanks,
Lew Malchick
n2rq@limarc.org

Here is a photo of Tom McKeivitt at our Field Day site this year. With Tom is Lew N2RQ who invited him to visit our site and LIMARC president Richie K2KNB.

7.3.16 Social Media

We advertised our Field Day presence on Facebook

7.3.17 Safety Officer Bonus

ARRL Field Day Safety Officer Checklist

To qualify for the 100-point Safety Officer bonus (for Class A stations), group must appoint a qualified person/s who are present at their site from beginning of set-up until the end of break-down.

This form is NOT intended to be all inclusive.

The Safety Officer/s certify by submitting this form that due diligence was made to provide a safe operation.

[check (or circle) any/all that apply]

- ☒ Safety Officer/s or qualified designated assistant/s was on site for the duration of the event.
- ☐ Fuel for generator properly stored.
- ☐ Fire extinguisher on hand and appropriately located.
- ☐ First Aid kit on hand.
- ☐ First Aid - CPR - AED versed else trained participant/s on site for full Field Day period.
- ☐ Access to NWS alerts to monitor for inclement weather.
- ☐ Tent stakes properly installed and marked.
- ☐ Temporary antenna structures properly secured and marked.
- ☐ Site secured from tripping hazards.
- ☐ Site is set up in a neat and orderly manner to reduce hazards.
- ☐ Stations and equipment properly grounded.
- ☐ Access to a means to contact police/fire/rescue if needed.
 - ☐ Safety Officer is designated point of contact for public safety officials.
- ☐ Minimize risks and control hazards to ensure no injuries to public.
- ☐ As necessary, monitoring participants for hydration and ensuring an adequate water supply is available.
